

# LIDLAW HOODIE DESIGN 2024

**As we enter the new Winter season, we have the opportunity represent our Laidlaw community with a new hoodie design!**

See below for a breakdown on the meaning of each symbol.

---

The Bible is a foundation for our faith and our College. Sections of horizontal lines replicate the pages of Scripture, representing the reading and studying of the Word, as it is similarly represented in our logo.

---

The flourishing of God's creation is shown through a branches/leaf motif, representing the formational aspect of our community, and the personal growth of each within. The upward facing direction of the shapes represents the forward nature of the growth we work towards.

---

The soundwave semicircle is representative of birdsong, and also acknowledges the presence of the Spirit as a parallel concept. The breath of God brought the earth to life, our birds sing to one another, reflecting the calling to life of creation. This symbol echos across our study/work spaces.

---

The symbols are woven together similar to a flax weaving pattern, to create the overall design. Together they create a cross formation in the centre, indicative of Christ at the centre of our community.
